

10 Successful Tips to Fail in Planning

Planning 5

Presented by :Hany Ismail,MSc,PMP

10 Successful Tips to Fail in Planning

1- Be a Document Controller.

- Collect Documents Only – Progress Update.
- Transfer documents form Contractor side to Client side – Weekly Reports.
- Huge data without Analysis.

10 Successful Tips to Fail in Planning

2- Enjoy being a Client Requirement.

- Planners exist only to satisfy client and the contractual requirements.
- Planners are not useful and construction teams don't follow time schedules.

10 Successful Tips to Fail in Planning

3- Produce more Colorful Documents.

- ❑ Planning engineer role is to develop a lot of colorful documents to submit to client and project manager. No one looks to it anyway!

10 Successful Tips to Fail in Planning

4- Be an AC Engineer.

- ❑ Planner position is to be in office, data should come to him/her, Construction site visit is not required, it is hot/cold over there.

10 Successful Tips to Fail in Planning

5- Police Man “ Audit Person”

- ❑ Planning Engineer is the police man of the project , s/he will report update and delays, and don't interested in proactive plans, just making updates , and finding the wrong things when happened.

10 Successful Tips to Fail in Planning

6- Not interested in Plan B

- ❑ Site should execute the time schedule as is. It is very hard to change the original time schedule to match the site conditions.

10 Successful Tips to Fail in Planning

7- Meetings Person.

- I am sorry , I have no time I have lot of long meetings to attend.
- Spending less time with the project team.

10 Successful Tips to Fail in Planning

8- Planning mean Planner only!

- No need for the project team inputs, I know everything!
- Coordination between project team is the project manager responsibility, Not mine!
- Time schedule is not being followed by the site team.

10 Successful Tips to Fail in Planning

9- I will do one report only!

- It is not my problem if the site team do not understand my reports.
- Site team should learn project management by themselves.

10 Successful Tips to Fail in Planning

10- Planning means Primavera

- I work only with Primavera, and I will do any schedule using Oracle Primavera Only!

10 Successful Tips to Fail in Planning

This is how successfully you can fail in Planning, what about if you want to succeed?, This will be in the next video , we will show the same previous 10 things but with different attitudes to be a successful Planning Engineer.

Thanks!
